

DENTAL SUCCESS TODAY

PRACTICE — IN ACTION —

"August was our first month with Dental Success Today and we have started off with a bang. There are so many questions and so many unknowns since this is our first month but it has been so exciting to watch our team really come together and embrace all of the changes! We are having more fun at work every day and we have been engaging our patients more than ever.

We started off the month with a School Spirit Contest on Facebook. We posted flyers around the office and put one in every patient take home bag. We have also decided to start a Pinterest page and an Instagram page where we will feature an exceptional patient each week. We are starting to see things differently just in the short time we have worked with Scott, Kevin and Tyrella. They have been there to answer questions at every turn and we cannot wait to see what the future holds!!!

Way to Go Dr. Skaryd and Team!
